Preface

Who are we?

Muslims - Those who believe that we worship Allah alone

Who do we believe in?

"Allah" the one and only!!

Why are we sent to this world?

With the assurance that we will live only by Allah's commandment...

Whom should we follow as guidance?

Prophet Muhammad (pbuh) the Messenger of Allah.

Where are we going back?

To Allah after death; To surrender our accounts and gain Paradise …

Are we living on this basis now???

Majority of us are "No"

Some people follow certain guidance here and there and not worried about the rest

If you and your family who are reading this are living carefully based on the commandment of Allah & Prophet Muhammad's guidance means, **Alhamdulillah! May Allah Bless you all!**

If the answer is "No", and are living just for the name sake as Abdullah, Abdur Rahman, Ayesha, Parveen means then as you ignore Allah's commandment and Prophet's guidance,

Allah will also abandon you and will choose people other than you. Allah warns us in the Qur'an that they will not be like you.

In a fast changing world, it's only Allah's fear (following Allah's commandments and the path of the Messenger and having the fear of returning to Allah after death and handing over the accounts and get the reward of Paradise) can save ourselves and our children's faith in future and not our accumulated wealth and the worldly education can do any favour to our faith Dear Brothers & Sisters.we must understand this.

Because of the life we live today forgetting Allah's command and doing even small, small things as careless, inattentive, self-indulgent we see people quarrelling all the time result of which suffering from countless physical diseases such as BP, diabetes, etc. in many families today.

The only solution is our complete surrender to Allah! Let us move towards to the solution with deep faith that He alone has created us, provided us with sustenance, and He alone can solve our problems.

In this short collection, we will see that how we have failed to do everything that we should do, and what kind of solution from Allah will make us and our descendants live peacefully and happily in this world and pave the way for eternal heaven after our death. Inshah Allah.

Ya Allah!

It is You we worship and You we ask for help.

Guide us to the straight path.

1. Faith (Imaan)

Ashhad al-Lailaha Illallah, Wa Ashhad anna Muhammad Rasoolullah!

I bear witness that there is none worthy of worship but Allah and that Prophet Muhammad (Pbuh) is the Messenger of Allah.

Keep reciting this kalima every day whenever you have time - at home, while traveling in a bus/car, while at work etc.. Especially if you have small children and teenagers in your house, say it loudly so that let them hear it. Ask them to recite it too. Also repeat its meaning regularly. They too will understand. Allah is pleased with your testimony. You are sowing good seeds in your household. It will bloom with grace and flourish..

Alhamdulillah!

2. Prayer

"Prayer" is a must deed that should be done by everyone in the house without saying any excuse, including **"Fajr prayer"** in the morning... The difference between a believer in Allah and a disbeliever is determined by prayer.

The Father plays the most important role in a household. If he prays regularly means he makes his wife pray and his children also pray. If everyone in the house prays, that family becomes a blessed family of Allah.

If the head of the family does not pray, the wife and the children do not pray as well. The head of the family is responsible for this slippage and not only that the faith on Allah for him as well as his family members become very weak. He becomes the cause of unaccountable punishment by Allah.

If you who are reading this either male or female have not been paying attention to prayer, then you must order everyone in your household above the age of 7 to pray from now onwards. You pray all the prayers first. Make dua to Allah for your as well as your family members steadfastness and determination. Allah will make it easy **Insha Allah.**

Allah says

Prayer is an obligation imposed on the Mu'min to be performed at a specified time.

3. Fasting

As you are aware that every year we Muslims must fast during the month of Ramadan with the exception for those who are travelling and sick. These day must be compensated after Ramadan.

Almost all Muslims without exception are fasting nowadays. If you who are reading this have not fasted for some reason the last Ramadan, then definitely start fasting next Ramadan without any excuse.

"Ihtiqaf" is the most important good deed for the fasting people to observe in the Last 10 days by staying at Masjid.

Seeing a 20-year-old youth observing Ihtiqab at a masjid this Ramadan, he was asked, "What bro?" Is this the first time 'ihtikaf'? He has responded by saying, its my 10th year. He further added that, his mother told him at an early age;

First **"for Allah (swt)"**

Then comes **'mother '!**

When my mother encouraged me for **'Ihtikaf'** when I was 10 years old, it has been going on every year since that year till now; He said.

Just think about it! What kind of mother? What kind of son? In the same way, if you and your children are together, what kind of family atmosphere will prevail for Allah at household.

Insha Allah make your (niyyath) intention now and pray to Allah wholeheartedly, ya Allah!, "make things easy for us", "make such conditions prevail in our house"! Keep nagging Allah! And it will happen Insha Allah.

4. Zakat

You are all aware that you have to pay Zakat 2.5% on your savings i.e. money and goods! Maintain it properly and give it annually to the poor in your own household.

Brothers and Sisters, pray to Allah, O Allah, bless us in our wealth to the extent of giving Zakat! Allah will open the bounties for you. Inshallah!

5. Hajj

If you haven't performed Hajj yet, pray to Allah, oh Allah! grant me and all my family members the privilege to perform Hajj! Brothers and sisters ask Allah with sincerity and wholeheartedness.

When we ask Allah, ask broadly, thinking that we are asking the God of the heavens, the earth and everything in between. He will bring it to you in any way, whether it is financial or physically strong enough to go on Hajj! Brothers and sisters, ask Allah with full faith that 'it will be achivable' and 'it will happen'! Insha Allah.

6. Taking care of Parents

If you are a man or a woman, if your parents are alive, embrace them, love them and keep them with you, realizing that they are your 'easy way to heaven'.

After accepting Allah as God, the first command Allah gave is to take care of parents!

Today we often see parents being treated very badly with no respect, no kind word, no food they like, no arrangement (even children with affordability) to live where they want.

Most of the people fail to take care of their parents, saying;

- My brother is the eldest and he should keep the parents;
- There is no facility in my house;
- that I have no financial means;
- My wife doesn't agree;
- and any other silly reasons

They become very careless in taking care of their parents. This is an act that Allah, our Creator, hates. Due to this, indirect effects are likely to occur in our daily life.

If you have walked away from them until now, let it go.

Sow the seeds for change today. The first thing you should do is pray to Allah!

Look carefully at what Allah says in the Qur'an about how

to pray.

And your Lord has decreed that you worship not except Him, and to parents, good treatment. Whether one or both of them reach old age [while] with you, say not to them [so much as], "uff,"[1] and do not repel them but speak to them a noble word.

And lower to them the wing of humility out of mercy and say, "My Lord, have mercy upon them as they brought me up [when I was] small."

Your Lord is most knowing of what is within yourselves. If you should be righteous [in intention] - then indeed He is ever, to the often returning [to Him], Forgiving. (Quran 17:23-25)

"Rabbir Hum Huma Kama Rappayani Saghira"

First of all ask Allah **"Oh Allah! please protect my parents as my parents protected me when I was a child."**

Develop in yourself a mental maturity to love them with wholeheartrdness. By giving them a truly unadulterated place in your heart. By doing so;

- Allah will make your household auspacious
- In life, Allah seeks prosperity and grace
- You will feel peace of mind
- You will get many more benefits.
- This applicable to both partner's (husband &wife) parents.

In some places, if the parents are having only one daughter, where will the parents go in their old age if the female child does not come forward to take care of them?

It is very important that there should be a real competition between children in caring for their aging parents. It is also important to approach this as a major duty and with enthusiasm.

By doing this, your children growing up at home will have the opportunity to learn how to take care of their parents too at a later stage..

Do you know that parents also become the cause of bad behavior in children?

- Staying at home and telling lies like "say daddy is not at home"
- Complaining about the guests visited when they leave the house,
- Talking bad about other people,
- Dig into other people's faults and complain about them,
- Calling others by nick names (bad titles)
- Making casual hurtful jokes about friends and relatives,
- Telling others about someone,
- Behaving arrogantly and boastful,

We all know that it is something that can happen in ordinary homes.

But you being an Adult and do this casually and go away; but the children in that house observe it closely and the habit goes into their subconscious mind without them knowing it.

Then the children exhibit the same habit. Correcting them after that becomes difficult. Such children grow up to be evil people in the society.

Parents and elders at home should be a good role models for children.

They are mainly followed by children.

Parents should be careful.

7. Maintaining relationships with Kith & Kin.

Allah says that the following relations are the closest relations.

- Parents
- Children
- Brothers and sisters
- Spouses (husband to wife, husband to wife)
- Relatives (Sachi, Chacha, Grandfather, Grandmother, Aunt, Uncle and other relatives including their children)

The Messenger of Allah (pbuh) said:

Anas Ibn Malik (R.A.) declared that if a person wants wealth to be given to him or his life to be extended, he should maintain relationships with his relatives! (**Buhari: 2067)**

Everyone has a desire to live longer in this world. The only way to do that is not to engage in regrets, fights and quarrels with relatives, even if they themselves have made mistakes most of the time, forgive, give up and stick together, and show more interest in living in a relationship. So you can get rid of stress and anxiety. When we forgive, Allah also forgives our knowingly and unknowingly mistakes/sins. Brothers and sisters, what we can send forth (forgiveness etc.) to Allah the same we can find (forgiveness)in Allah when we return to him

(hereafter).

In the matter of maintaining this relationship, be it the relationship of the husband or the relationship of the wife, help each other not to burn incense in the matter of the other, but to behave in a supportive manner. The time we live is short! Also, it is good to avoid mourning and honor in the matter of relations when it is not known who will precede whom in death. Pray more to Allah that our hearts may be full of mercy, Brothers and Sisters!

8. Friends

Whoever keeps us away from Allah, it is better for us to stay away from him.

The above are the minimum criteria for how we should choose our friends!

Yes, Brothers and Sisters! When you meet or see your friends around you (either husband or wife) immediately if you are reminded of Allah, then you are in a protected friendship.

He must be able to remind you the command of Allah and the way of His Messenger (pbuh) to do good and avoid evil.

For example, if there is a small problem in your business, and the friend who hears it who immediately says that it is nothing, I will arrange for you to borrow money on interest, and he can solve the problem then and there means that you will unknowingly going towards your destruction. Instead, he should suggest you to be patient and seek relief from these small trials of daily life from Allah. If he is the one who comforts you that relying on Allah has the greatest benefit, and you will certainly receive the relief in it appropriate time. Insha Allah.

There is a saying, "Tell me who your friend is, I'll tell you who you are."

The head of the family (husband) and his partner (wife) should always associate themselves with pious friends. Pay more attention to this, Brothers and Sisters!

Your ally is none but Allāh and [therefore] His Messenger and those who have believed - those who establish prayer and give zakāh, and they bow [in worship]. (Quran 5:55)

9. Game, TV Serial, Cell Phone,

According to a statistic, out of 800 Crores people today, 400 Crores people are connected to the Internet (mobile). Half of that i.e. 200 crores people are playing games on mobile.

The worst part is that by 2030 the population will touch 900 crores, but 400 crores of them will become mobile game players.

Caution we and everyone in our household (young and old) are in a compelling situation to change/replace this evil right now with activities which pleases Allah i.e. Reading Quran, Nafil Prayer, Adhkar, visiting sick people etc.

Apart from playing games on the mobile we all spend a lot of time on mobile phones regardless of age. It cannot be denied that unrestrained fights and quarrels are rampant in everyone's home because of it.

TV serial is the next mega issue. No need to explain this.

Accessibility to Pornography.

The next ticking time bomb to damage the household and society.

How can this be countered?

If both, husband and wife are too involved in this (playing games, drowning in phone, watching serials, etc.) the readers should first make a joint decision that they should change themselves from this. Why?

1. Obey Allah

2. Fearing the punishment of Grave and the punishment of the Hereafter.

3. If we ourselves are not free from this harm at our age, and not considering wrong a wrong;

What will happen to our younger generations?

If we ourselves do not obey Allah, how will our descendants obey? Will not faith and Islam getting away from us little by little?

The initial consequences of these non Islamic activities will resemble in our prayer and other forms of worship, It start with a dullness, lack of involvement and non interest, and eventually Islam becomes far away from us and our family. Only Allah can save.

> **[This] worldly life is only amusement and diversion. And if you believe and fear Allāh, He will give you your rewards and not ask you for your properties. (Quran 47:36)**

10. Maintenance of Maharam/Hijab

Today men and women are more casual and mixed living. It is not a matter of surprise that this civilized practice has grown among our people who call themselves Muslims! Because many of us don't know anything about Islamic fundamentals.

Keeping the mahram, standing in front of or talking to strange men without proper hijab is something that should be completely avoided. Hijab must be fully maintained with the men even in our neighboring/adjacent houses whether they are Muslims or non-Muslims. The role of a family head (father) is very important to adhere this practice among his wife and grown up girls at home strictly. Full attention should be paid to maintaining the clutter in the house according to Islamic principles.

The heads of the family (husband & wife) should be fully involved in this and protect themselves and the women in their homes with the fear that Allah is watching over us.

What we sow is what we reap.

The maintenance of hijab and the order of maintenance of mahram will forever enlighten our generation in morals by the grace of Allah. An act of extreme caution Brothers and Sisters!!

Wearing Half Trousers

Having said that, for male family members, there is an inappropriate dressing code nowadays in form of 'culture' as wearing **"Half Trousers".** This is complerely non Islamic. A male must cover himself atleast from 'Belly button till beyond knee'. Any thing less than that is non Islamic and involve Allah's angry and punishment. This type of wearing 'Half trousers' inside home in front of mothers, sisters & daughters also not acceptable. Be careful Brothers and Sisters!

11. Business/Profession/Financial Practices

Muslim means one who worships Allah alone completely, this is what it means.

But do we implement Allah's law in our business, profession and financial practices? Think about it without haste.

Is your **business, profession and financial affairs** involved in **lying, cheating, exaggerating, misrepresenting information, breach of trust, usury buying, giving** and **other similar activities?** Or have you drowned in it? Think about it calmly. **'No'** means then thank Allah very much.

'Yes' means then exit from it at the earliest. Make a lot of dua to Allah for that

"YaAllah!" Knowingly or unknowingly I have gotten caught up in things that are not acceptable to you in my materialism. Forgive me in this matter! And expell me from this! Please save me and my family from financial loss and mental anguish! Brothers and sisters, it should be a desperate prayer for your recovery to Allah who created us, just as a distraught child would ask for something from his mother. Allah will surely help.

12. Not indulging in Fast food & not wasting food

All kinds of fast foods are harmful to health! Understand this first.

Do we rarely eat? or Do we always eat? Accordingly, is the price we pay to create our own health problems!

I think it is good to narrate an incident here. Once a 26 year old Muslim woman with her two sons (5 years, 3 years) were on the opposite seat during a train journey. She opened two chips pocket and handed them over to each one followed by another pocket each (means two pockets each), then the lady took two more big bags of chips for her dinner and starts eating. What state will their health be brought to by such series of 'packed foods culture' day after day? May Allah save them.

If we want to be healthy and not suffer from any kind of diseases, we should also love the habit of cooking and eating food at home and inculcate it in our next generation. We should convey its benefits to the younger generation. Most of the time the cost difference between the two (cooking and ordering fast food) is huge. This includes tending to spend 5000 rupees while having the opportunity to eat for 500 rupees at certain times. Avoid this wastage.

Eating fast food once in 15 days or even once in a week is not a problem.

At the same time more attention should be paid to wastage/ food wastage. Avoid the habit of eating half of ordered fast food and home cooked food and throwing the rest away as

waste. More attention should be given to this.

Allah warns against it in the following verse.

> **...Eat and drink, but be not excessive. Indeed, He likes not those who commit excess. (Quran:7:31)**

13. The most primary reasons for the deterioration of a family's financial condition are....

1. Creepy touch screen phones in the hands of everyone in the family…
2. Holiday tourism undertaken for social value...
3. Automobiles and electronics have become symbols of social value…
4. Avoiding home-cooked food and eating out unnecessarily on weekends and other days began to be thought of as prime, high, happy and an outlet to flaunt their superiority…
5. Degenerate lifestyles – driving up medical expenses…
6. Developed salons, parlors and clothing as a symbolic sense of brand value for social value...
7. Spending more money on making birthdays and anniversaries special than spending time together...
8. Grand weddings and family celebrations…
9. Because of commercialized foods, hospitals, schools, trainings and education...
10. Loans and credit cards have become essential to meet theirin unaffordable income a short period of time…
11. Spending money on interior and exterior decoration of home and office creating piles of garbage thereby increasing maintenance costs...

We copy the lifestyle of others without understanding our needs and income.

If it is not reduced, it can turn into disease after many years (because the habits don't change) leading to more stress and anxiety….

This applies to most of us.

This is a very subtle message for those who like to think.

Get out of this illusion immediately Brothers and Sisters!

Make life easy.

Happiness is overwhelming.

14. Diseases and Medicines including BP, Diabetes..

Medicine boxes are present in every home without exception like women having their own personal make-up kit. what a cruelty

The most important cause for Blood Pressure, Diabetes etc. which have been increasing over the last 15/20 years are

- Greed
- Jealousy
- Excessive expectation of living like or ahead of the other person.
- Impatience
- The feeling that what one thinks should happen.
- Forced by the family
- The meaning of worldly life is incomprehensible.
- Poor mood
- Absence of steadfastness towards Allah

The list goes on...

The Prophet (pbuh) said. I am amazed at this man. If something good happens to him, he immediately thanks Allah. That too is good for him. He is patient if what he thought and tried did not happen. That too is good for him.

As stated in the above hadith, a Muslim's life should be realistic. There is nothing wrong in trying to achieve something

that Allah has permitted and exerting one's full strength for it. But if it benefits us and our dependents, Allah will make the way of its implementation very easy.

If it does more harm than good to us or our dependents, Allah will not allow this to Happen. If it will bring more benefits later than if it happens immediately, Allah will let it happen like that.

it is the will of Allah, one should understand this clearly.

By not having the understanding that everything happens as per 'Allah's will' the people take wrong decision due to haste and tension in anything, stress and anxiety and it happens day by day for most.

The only solution to it is to turn towards Allah and to live life in accordance to his commandments and Prophet Muhammad's guidance Brothers and Sisters.

15. Child rearing

Compared to earlier times, people from all walks of life in our Muslim society are making efforts to educate their children. This is great!

It is necessary to encourage our children to become doctors, engineers and progress in many degree courses needed for the future!

Among all these there is a great way to make your children Islamic scholars!

How?

Break Course is what we can do at an early age with our children. Inshah Allah!

What to do?

Children should go to maktab madrasa and learn basic Quran like all other children in the madarasa near home. When they finish study up to 3rd (LKG to 3rd) standard and then drop out of school and spend 2 years in Hiflu (memorizing Quran) madrasa to memorize the entire Quran.

Then give some tuition and enrol him/her in to the 5th Standard. After studying in school from 5th to 10th and after passing out 10th, drop out to study Aalim course for3 or 4 years.

Then through NIOS he/she can choose 5 subject to write +2 and study after which any degree course of his/her choice as a doctor, engineer, and you can progress by studying any

degree courses that are necessary for the future.

This is a great way. When all our children are educated in the same way, it will be a precautionary measure we take to prevent apostasy in future generations. May Allah make it easy for us all! Amen.

In the meantime, a boy who has completed Hifz (10 or 11 years old) should be arranged to recite the entire Qur'an in Ramadan every year by leading Tarawih prayer in any Masjid or private arrangements. It is an opportunity to retain and refine the memorized Quran.

This is a tremendous opportunity. Through this we make all the boys and girls to memorize the Qur'an and make all our children a learned religious scholars so that their and their parents' lives in both the worlds divinely appropriate. Inshah Allah!

Alhamdulillah! Keeping in mind that we will reap what we sow, it is very important for you as parents to make dua to Allah for such initiatives and make them successful.

If you have grown up children reading this, get them interested in memorizing some Juz or Surahs from the Quran. Also definitely include them in the Islamic summer courses. Make sure to include the youngsters in the Maktab Madrasa of the Masjid near your home.

If you have grandchildren then please explain the above to your son or daughter and give them to read this book.

And obey Allāh and the Messenger that you may obtain mercy. (Quran 3:132)

16. Superstitions and Unauthorized (non Islamic) Practices

At a time of great superstition and ignorance (1450 years ago), in a great place (then Makkah and surrounding areas), Allah chose the Prophet Muhammad (pbuh) to restore pure Islam from all false, immoral practices and belief in what Allah does not approve of. Alhamdulillah!

All of us living in either Indian territory or rest of the world, some, many generations ago, our ancestors were all worshipers of idols (stone, earth, wood, animal)! Allah's grace upon us guided our forefathers. As a result of that, today we are all Muslims having names as Abdullah, Abdur Rahman, Ayesha and Parveen. It is our duty to properly maintain the faith (in its purest form) we have received and to mold our next generation as those who maintain the limits set by Allah and the instructions shown by the Messenger of Allah (pbuh).

It is like a series of races. Our previous generations have preserved Islam and handed it down to us. To put it more neatly, we should not allow any superstitions, customs and formalities that are not in Islam, and we should maintain a pure Islamic life and take a pledge from our descendants, that is, they should pass the button of faith in its purest form to the following generations Insha Allah. We must pray Allah to grand all our descendants till the dooms day to live and die as Muslims, we must regulate this Brothers and Sisters!

It is the duty of the head of the family to ensure that the following superstitions and activities that are not allowed in the religion are not present in our family.

Dargah worship, amulet wearing, plaque changing, falling on other people's feet, tariqa, mureeds, omen viewing, ganduri ceremony, taking milk pot, puriyan pathiya, doing 16th day for the dead, khattam pathiha, divination, witchcraft, Baraat night celebration, Miraj night celebration, Prophet's birthday celebration etc. We have created so many innovations that we have made it popular.

If any of these or some actions are practiced in your family, avoid them from now on, Brothers and Sisters!

If you blindly follow the above which are non Islamic because most people do among your relatives and in your area, what Allah and His Messenger have not shown us, then one of your next generation growing up will be engrossed in associating partners with Allah. Or they will misunderstand the habits that are not compatible with this kind of life and go to the principle of denial of God. Becareful Brothers and Sisters.

It is naive to think that your next generation will accept all these baseless activities blindly as our generation has blindly accepted in this age of rapid development of technology. In this the head of the family should be very careful. The Islam of your future generations is in your hands.

Allah says!

O you who have believed, protect yourselves and your families from a Fire whose fuel is people and stones, (Quran 66:6)

17. Bringing Islam and the principle of 'Oneness of God' to those living around us (Preaching).

Dear Brothers and Sisters!

The best treasure among all the treasures we have is "Islam".

We know that the people who still live around us without realizing the truth accept other than Allah as their gods and worship them with pious zeal, instead of good (heaven) it will bring them evil (hell) in hereafter..

May the people living around us now face us in 'hereafter life' before going to Hell (because of their association of non God as gods) and say "why you didn't tell us that Allah is the only God for all of us?" if so, we could have guided on the earth (dunya) itself and If you had done that, we would have gone to heaven with you today! What can we answer who lived near our houses asks?

So what should we do to make this truth (Oneness of God principle) available to those around us?

Around us, we encounter everydayo

- ★ Neighbors...
- ★ People who work with...
- ★ Friends...
- ★ Fellow students...

- ★ Professional friends...
- ★ The shopkeepers whom we buy their goods...
- ★ Milk sellers
- ★ Vegetable vendors...
- ★ Fishmongers...
- ★ People who travel with everyday..
- ★ Those who meet at the petrol station...
- ★ Employees in respective business... etc. etc

Even if we meet all these people everyday, even if we talk about politics, economy, cinema and worldly practices, we hesitate to talk or do not talk to them about the principle of God....

Don't hesitate anymore. We are introducing the QR Code of the following books for you to introduce them. Download these QR codes (books) in your mobile and send them to your surrounded non muslims through WhatsApp to let them read to understand the oneness of God.

18. The Web Behind Islam

-Ranjit Lal Madhavan.

Why is the world so against only Muslims? Please spend some time.

How skillfully the world media has implanted the false propaganda of "Islamic Terrorism" into the hearts of the people!

A message we all need to know.

The global **drug** trade is worth $321 billion a year.

Alcohol sales in the world are 1600 billion dollars per year.

The global **arms** trade is worth about $100 billion a year

The **prostitution** business is worth around $400 billion a year in this world.

The **gambling** business is around 110 billion dollars a year in this world.

Gold business is 100 billion dollars a year in this world.

The **computer game** business is $54 billion per year in the world.

ISLAM stands against a total of 2380 billion dollar business every year!

Alcohol, drugs, adultery, gambling are all forbidden (haram) activities in ISLAM

1 billion dollars means 7000 crore rupees..

2380 Billion Dollars = 1,66,60,000 Crore Rupees (One Crore 66 Lakh Sixty Thousand Crore Rupees).

If the world accepts the Islamic policy of not selling alcohol, liquor, and drugs, the loss will be $2000 billion in drug mafia's business!

Islamic law will end the 100 billion dollar arms mafia business if they attack other countries for petrol without causing chaos on earth and without killing innocent people and shedding blood!

If the Islamic principle of not engaging in prostitution comes into force, the 400 billion dollar business of the prostitution mafia will end!

If the world adopts the Islamic principle of no gambling, the 110 billion dollar business of the gambling mafia will end!

If the world accepts the Islamic principle that a woman's nudity is her privacy and not an exhibition, the $100 billion business of the porn mafia will end!

"ISLAM" has started a War on this 2300 billion dollar trade..will they welcome that **ISLAM** without opposing it?

These mafias have bought the world media to portray Muslims as terrorists and the media mafia has grown and thrived by feeding on the bones thrown by these mafias.

They marched across the Globe chanting that Islam is

terrorism. They nurtured terrorism with this money.

The terrorism created by these mafias is called Islamic terrorism!

Everyone said with one voice that Islam is extremism.

For that, they themselves bought some Muslims with these billions of dollars.

ISLAM , which said that killing one is equal to killing all people, became a religion of extremism!

If your eyes and hearts are not blinded by bigotry, open your eyes and open your heart and listen..

How skillfully they have taken you away from the words of your God and how skillfully they have impressed upon your hearts "Islamic Terrorism"!

"Indeed, man is ungrateful to his God" Quran

19. The future belongs to ISLAM!

They want to extinguish the light of Allāh with their mouths, but Allāh will perfect His light, although the disbelievers dislike it. (Quran 61:8)

As mentioned in the previous chapter, this world has been working against Islam for centuries by promoting false propaganda in the name of Islamic Terrorism, a huge war, but at the global level. However, more and more people somehow or the other getting to know the **superiority of Islamic morals and principles** and embracing ISLAM to a large extent.

Although the western world has borrowed much of its knowledge, civilization, culture, morals, etc. from Islam, they are still suffering the consequences of not receiving the spiritual knowledge and civilization of Islam.

The same situation prevails in India too. When majority of the population are following in a way not shown/stipulated by God, a society will definitely experience moral decline either in individual life or family life.

Such a moral decline is the basis of a social decline as the earlier histories teach us. However be it an individual life and Social life since **ISLAM** remains intact with the totality of social ethics **in Quran** and clear cut **guidance** from Prophet **Muhammad (pbuh)**, **Future belongs to ISLAM only!!!**

In the above verse, Allah makes it clear that the Islamic civilization will lead the world in the future.

Eternity belongs to Islam Only!!!

Finally…..

Dear Brothers and Sisters!

"ISLAM" is the greatest blessing we have got it from our forefathers. Islam has been rooted in every one of our families by the grace of **Allah** from the time that any of our forefathers reverted to Islam. Alhamdulillah!

From now until the end of the world, we have the duty to raise our descendants in Islam as those who have full faith in Allah, and those who live by following His commands and the instructions of the Prophet Muhammad (pbuh), Brothers and Sisters!

It is canon that our people will also follow the principles of Islam in the uncultivated condition that we live in.

We can reap what we sow.

This book that creeps into your hand is a little reminder. Treat the messages as important.

- **Hold on to Quran**
- **Hold on to the instructions of the Messenger of Allah.**
- **You will never go astray!**

May Allah bless us all

ஈமான் கொண்டோரே!

நீங்கள் அல்லாஹ்வை
அஞ்ச வேண்டிய முறைப்படி அஞ்சுங்கள்;
மேலும்,
(அல்லாஹ்வுக்கு முற்றிலும் வழிப்பட்ட)
முஸ்லிம்களாக அன்றி
நீங்கள் மரணிக்காதீர்கள்.
குர்ஆன் 3:102

O you who have Believed!

O you who have believed, fear Allāh as
He should be feared and do not die
except as Muslims [in submission to Him].
Quran 3:102
