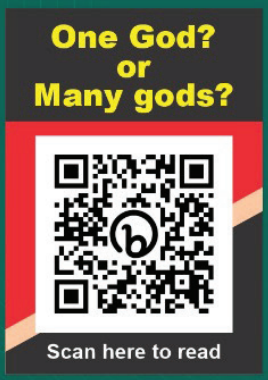
88388 92393

God had created the Universe and estableshed Adam (the first man) on the earth to live based on the following Three main Priciples only.
Until the doomsday these three priciples must be adhered by all.
You and your descendants must know and follow it in order to attain Paradise after death. Here are they:



Monotheism

Prophethood

Life after Death

Did the Quran Predict Science?

(Will it continue to do so?)

Compiled by:

Ibn Muhammad

ABOUT THIS BOOK

Name of the Book	:	**DID THE QURAN PREDICT SCIENE?**
Author	:	**Ibn Muhammad**
Assisted by	:	Sheikh & Sheikh
Language	:	Tamil
Edition	:	1st Edition (2025)
Copies	:	1000
Total Pages	:	74
Published by	:	**MAS Foundation Trust** No.19, Thacker Street, Purasawalkam, Chennai - 600 084. Mobile: **88388 92393**

Inside...

- Preface.....5

1. Sound Vibrations..... 10
2. Climping Higher..... 11
3. Iron..... 12
4. Universe Expansion 13
5. Sun & Moon.....14
6. Planet vs Orbit.....15
7. Mountains.....16
8. Water.....17
9. Sky.....18
10. Sea.....19
11. Big Bang Theory..... 20
12. The Ruturning Sky..... 21
13. Space travel is possible!..... 22
14. Sky has a protected Shield.....23
15. Sleep & Death.....24
16. We can only live on Earth..... 25
17. The Earth shrinks at the edges..... 26
18. Earth as a cradle..... 27
19. How deep can you go underground?.....29
20. How is groundwater stored?..... 30
21. Earth is being depleted by humans.....31
22. Wave in the deep sea.....32
23. Sterile air..... 33
24. Twelve Months..... 34

25. The Sun and the Planets are moving.....35
26. Development of the baby in the womb.....37
27. Production of a human being from mixed sperm.....38
28. In Pairs..... 39
29. Origin of sperm.....41
30. The uniqueness of womb..... 42
31. The importance of fingerprints.....43
32. How is milk produced?..... 44
33. How is honey produced?.....45
34. Announcement about modern vehicles..... 46
35. Miracle cure for major anxiety.....47
36. Nerves that sense pain.....49
37. The Holy Quran is preserved.....50
38. Preserved Pharaoh's body..... 51
39. Prophet Noah's Ark..... 52
40. The Big Crunch Theory..... 53
41. Frontal Lobe (Fore Head).....54
42. Contradiction..... 55
43. Data Retrieval.....55
44. Formation of Clouds.....57
45. The Communication SystemBetween Ants..... 58
46. Male Determines the Sex of the Fetus..... 59
47. The Flight of Birds..... 60
48. Speed of Light..... 61
49. The transformation of rotten bones into stones and iron.....63
- Finally.....64
- Becoming a Muslim and how to be a Muslim?.....65

Editorial Note

Dear Readers!

Since you are going to learn about the scientific truths stated in the Quran through this book, a brief explanation of the Quran is necessary for you.

About the Quran....

- **How was the world we live in created?**
- **How finely the entire Universe is crafted?**
- **What are the characteristics of God?**
- **Purpose of creation of first man in this world?**
- **Why this 60-70 years of life in this world?**
- **How does God choose a messenger to guide Human?**

The answers to the above essential questions can be found through the following explanations.

After creating the first man **Adam** and his wife **Eve**, the God who created and governs the entire Universe, has guided the human race with **Three** Basic **Commandments** until now.

If you look at what those **three** main **commandments** are;

Commandment number one; **Monotheism**

We must **worship only the one God** who created and preserves the entire Universe.

Commandment number two; **Prophethood.**

God will not come to the world in human form. It does not suit Him.

This is the first important fact that we all must understand. Instead, God chooses the best of His creation as His Prophet/ Messenger. (According to how we choose the Class Leader in the class) through him the God sends His orders to mankind.

Why the Prophethood?

All those Prophets/Messengers were ordinary people only! For the society in which they live, according to the order of God, they teaches Three Basic Commandments, namely **1. "God alone should be worshipped"** and **2. In addition to telling us to follow God's commands,** he (the Prophet/ Messenger) himself follow that command and show us the way since he is a human being like us. The reason for that is God chooses humans as prophets/messengers to **prove that it is possible for humans to follow God's commands.**

We should follow the Prophet/Messenger whom the God has sent/chosen to guide this world, i.e. he will tell us **what to do and what not to do,** and he will guide us by following the same.

Commandment number **three;**

Life after Death

All of us will die one day when we reach our allotted time. Our purpose in this world; from our birth until the death that is destined for us, if we worship the One God alone and follow His commandments (Scripture + Prophet's/Messenger's guidance), then after death God will give us **Heaven** in an endless world as reward. **Hell** also an endless world, God has prepared as punishment after death for those who say

that there is; **1.** No God (Athiest), **2.** Worshiping non gods as God without any proof and authentication and **3.** some would say that we will follow what our forefathers found themselves in.

The Qur'an confirms all the messengers and scriptures that came befor it.

The first man, Adam, and all the messengers till Jesus

Prophet Muhammad (peace be upon him) was born in today's Saudi Arabia around 1450 years ago. At the age of 40, God had chosen him as a (Final) Prophet, and at the age of 63, he died. During these 23 years of life, the God revealed the Holy Quran to him through the angel Jibreel (Gabreal). This is the Final Scripture. After this, no Scripture will come until the end of the world and no other messenger will come after Prophet Muhammad (pbuh).

The reason why the Quran has not subjected to any kind of changes for the last 1450 years is because since it is the final scripture (no other scripture till dooms day), so God took responsibility to protect the Quran.

This last scripture (Qur'an) reveals every information of past, present & future with sovereign clarity.

The Quran does not contradict proven (Established Scientific Facts) science. Therefore, the Qur'an would contain the science that had been (Established) discovered and will be discovered too in the years to come till Doomsday.

Now, through this book, we will see what is included in Quran the established scientific facts so far.

Through this, one can come to know when nothing was known (science had not developed), that is, 1450 years ago, if the Quran makes such a clear prediction, then you can clearly understand that this can only have come from God, the Almighty who created and maintains the entire Universe.

Now, come forward to believe in God who revealed the Quran, through His Messenger, Prophet Muhammad and build your life henceforth according to Quran.

May God guide you!

We will show them Our signs in the horizons and within themselves until it becomes clear to them that it is the truth.[1] But is it not sufficient concerning your Lord that He is, over all things, a Witness?

Quran 41:53

Note

Brothers and Sisters should take note.

The word **"Allah"** used in Quranic verses, in this book and by the Islamic world is an **Arabic word** for **God**. Not a seperate God for Muslims.

Science means...

Gradual discovery through applied knowledge.

and/or

The term **"science"** generally refers to a systematic and organized body of knowledge about the natural and physical world, achieved through observation, experimentation, and the formulation of testable explanations and predictions. It encompasses the process of acquiring and organizing knowledge about the universe and its phenomena, using a rigorous and methodical approach.

1. Sound Vibrations

Quran 69:13-14

At last, when the Trumpet will be sounded with one blast, and the earth and mountains will be lifted up and crushed with one blow.

Science

Sound can transform reality. The science of cyamatics reveals how the sound vibrations shaps the world around us. What science has discovered is incredible. Sound can make objects levitate. it can boil water. It can even pierce through wall. Believe it or not, it can even create hurricanes.

2. Climping Higher

Quran 6:125

"He makes their chest tight and constricted as if they were climping up into the sky."

Science

The higher up you go, the tighter the chest gets.

3. Iron

Quran 57:25

'And we have sent down Iron, wherein there is awesome power and many benefits for people.

Science

'Iron is not from Earth".

4. Universe Expansion

Quran 51:47

" We built the Universe with 'great' might, and we are certainly expanding it".

Science

"The Universe has been expanding ever since the big bang".

5. Sun & Moon

Quran 10:5

"He is the one who made the Sun a radiant source and the moon a reflected lught".

Science

The Moon does not glow but reflect sunlight".

6. Planet vs Orbit

Quran 21:33

"And He is the one who created the Day and the Night, the Sun and the Moon, each travelling in an Orbit".

Science

"Every Planet has its own Orbit".

7. Mountains

Quran 21:31

And We placed within the earth firmly set mountains, lest it should shift with them, and We made therein [mountain] passes [as] roads that they might be guided.

Quran 16:15

And He has cast into the earth firmly set mountains, lest it shift with you, and [made] rivers and roads, that you may be guided,

Science

The mountains are gravitational pegs that stabilize earth's rotation motion. Mountain acts as earth's crust stabilizer and preventing it from sliding all over.

8. Water

Quran 21:30

"And we have created from Water every living thing. Will they not then believe?

Science

Water is one of the major components to all living things; In some organisms 90% of their body weight comes from water. Upto 60% of the every human adult body is water.

9.SKY

Quran 21:32

We have made the Sky a protected ceiling, as a sign from us, but they still turn away?

Science

Earths atmosphere contains gases which scatters sunlight, protects from Solar, UV, and Electromagnetic radiations. It also helps retain the heat within the earth thereby protecting from cold temperature of space (-270°c).

10. SEA

Quran 55:19-20

He released the Two Seas, meeting (side by side), between them is a barrier. (So) neither of them transgresses.

Science

Sea Water and Fresh water present side by side. But do not mix. Each body water has its own temperature, salinity & density

11. Big Bang Theory

Quran 21:30

Have those who disbelieved not considered that the heavens and the earth were a joined entity, and then We separated them and made from water every living thing? Then will they not believe?

Quran 41:11

Then He directed Himself to the heaven while it was smoke and said to it and to the earth, "Come [into being], willingly or by compulsion." They said, "We have come willingly."

Science

"The Universe began as just a single point, then expanded and stretched to grow as large as it is right now—and it is still stretching!"

A theory that the universe was created billions of years ago as a result of a giant explosion.

12. The Ruturning Sky

Quran 86:11-14

By the sky which sends back. And [by] the earth which splits, Indeed, it [i.e., the Qur'ān] is a decisive statement, And it is not amusement.

Science

"The sky carries the water it absorbs from the ocean and aquifers and returns it to us as rain."

The sky returns the sound waves sent from here to us.

Messages sent upwards are intercepted at one point and sent back down to us.

13. Space travel is possible!

Quran 55:33

O company of jinn and mankind, if you are able to pass beyond the regions of the heavens and the earth, then pass. You will not pass except by authority [from Allāh].

Quran 51:7

By the heaven containing pathways,

Science

Science behind space travel: **"Overcoming Gravity"**

This is possible thanks to propulsion, which operates on Newton's third law of motion: for every action, there is an equal and opposite reaction. Practically, this means when a rocket engine expels gas backward, it pushes the rocket forward.

14. Sky has a protected Shield

Quran 2:22

[He] who made for you the earth a bed [spread out] and the sky a ceiling and sent down from the sky, rain and brought forth thereby fruits as provision for you. So do not attribute to Allāh equals while you know [that there is nothing similar to Him].

Quran 21:32

And We made the sky a protected ceiling, but they, from its signs,[1] are turning away.

Quran 40:64

It is Allāh who made for you the earth a place of settlement and the sky a structure [i.e., ceiling] and formed you and perfected your forms and provided you with good things. That is Allāh, your Lord; then blessed is Allāh, Lord of the worlds.

Quran 52:5

And [by] the ceiling [i.e., heaven] raised high

Science

Ultraviolet rays from the sky are filtered into the sky. The speed of the incoming meteorites is controlled, they are burned and fall down to a harmless level.

The ridge above reduces the excessive heat of the sun.

15. Sleep & Death

Quran 39:42

Allāh takes the souls at the time of their death, and those that do not die [He takes] during their sleep. Then He keeps those for which He has decreed death and releases the others for a specified term. Indeed in that are signs for a people who give thought.

Science

There is something going out from the body while sleeping and during death. The one that going out is returning to a sleeping man; however it doesn't happened (returning) to the dead soul.

16. We can only live on Earth.

Quran 2:36

you will have upon the earth a place of settlement and provision for a time."

Quran 7:24

And for you on the earth is a place of settlement and enjoyment [i.e., provision] for a time."

Quran 7:25

"Therein you will live, and therein you will die, and from it you will be brought forth."

Quran 7:10

And We have certainly established you upon the earth and made for you therein ways of livelihood. .

Quran 30:24

when He calls you with a [single] call from the earth, immediately you will come forth.

Science

Through science and technology, man has made many attempts to go and live on other planets at great expense (but has not yet succeeded). But the Quran firmly states that life can only be lived on Earth.

17. The Earth shrinks at the edges

Quran 13:41

Have they not seen that We set upon the land, reducing it from its borders? And Allāh decides; there is no adjuster of His decision. And He is swift in account.

Quran 21:44

But, [on the contrary], We have provided good things for these [disbelievers] and their fathers until life was prolonged for them. Then do they not see that We set upon the land, reducing it from its borders? Is it they who will overcome?

Science

Scientists have recently discovered that the landmass is gradually being swallowed by the sea and is shrinking.

18. Earth as a cradle

Quran 20:53

[It is He] who has made for you the earth as a bed [spread out]

Quran 43:10

[The one] who has made for you the earth a bed and made for you upon it roads that you might be guided

Quran 78:6

Have We not made the earth a resting place?

The Earth is pulled by the Sun and revolves around the Sun like a spinning wheel without leaving the Sun

The Earth revolves around the Sun as if it is tied to the Sun by a rope.

Even though the Earth revolves around the Sun like a spinning wheel at a speed of 250 kilometers per second, we cannot feel it. We do not even see it rotating.

Even though the Earth rotates rapidly, we do not know that rotation. We will not be affected in any way.

Science

Science tells us that the earth's crust is divided into seven layers. The topmost of these layers is called the crust. The thickness of this layer is only 30 km from the surface. This is the level at which we live and move. Then comes Mentle.

The thickness of this layer extends up to 2900 km. The maximum temperature is 900 degrees Celsius. At this temperature, people are far away, even a small creature will be reduced to ashes in a moment. Just think, this terrible layer is located only 30 kilometers deep from the earth where we live, walk.

This is just the second level. The next level is called Outer Core. According to Wikipedia, its thickness is 2690 km and the temperature at this level is 3600 degrees Celsius. Think, what happens at these levels within the earth? The next level is called Inner Core. It's even more horrible. The lower you go, the more terrible the levels. The volcanic lava that we see is just a small eruption of all these levels. But the temperature of the crust layer at the level we are at is only 1% higher than the temperature of the other 6 levels, which is suitable for our habitation.

Now, pointing to this, if Allah says, I have made the earth for you as a bed, does that mean the shape of the earth? Not at all. It is clear from the next part of the verse that Allah has meant the level of the earth's crust which is suitable for our habitation. In the next part of it there is' And in which he has made a way for you.

19. How deep can you go underground?

Quran 17:37

And do not walk upon the earth exultantly. Indeed, you will never tear the earth [apart], and you will never reach the mountains in height.

Science

The highest mountain is the Himalayas, which is 9 kilometers high. The Quran, which predicts that space travel will be possible, says that it is impossible to go down to the earth to a height equal to this mountain.

Scientists say that man has not yet reached a depth of more than three kilometers, cannot reach it, and is even more impossible.

20. How is groundwater stored?

Quran 23:18

And We have sent down rain from the sky in a measured amount and settled it in the earth. And indeed, We are Able to take it away.

Science

Just as there is water on the surface of the earth, there are large rivers and abundant water beneath the earth.

They initially believed that this groundwater came to the earth through the sea. In fact, it was only in 1580 AD that they discovered that the rain falling from the sky was absorbed by the earth in places and that this water was stored underground as groundwater.

21. Earth is being depleted by humans

Quran 50:4

We know what the earth diminishes [i.e., consumes] of them, and with Us is a retaining record.

Quran 71:17

And Allāh has caused you to grow from the earth a [progressive] growth.

Science

The scientific truth that the earth is shrinking due to the humans living in the world has been revealed.

No matter how many living beings are formed on the earth, their weight does not come from outside. It is only when the earth's weight decreases that it produces humans, animals, trees, and other living beings.

In this way, all the things that sprout and grow take their weight from the earth.

22. Wave in the deep sea

Quran 24:40

Or [they are] like darknesses within an unfathomable sea which is covered by waves, upon which are waves, over which are clouds - darknesses, some of them upon others. When one puts out his hand [therein], he can hardly see it. And he to whom Allāh has not granted light - for him there is no light.

Science

Scientists have only recently discovered the existence of a cycle of intense waves in the depths of the ocean.

Everyone knows that waves creep along the surface of the ocean. But there are waves in the deep ocean too; it was only after the tsunami that humans became widely aware of the fact that huge waves that occur in the depths of the ocean can become violent.

23. Sterile air

Quran 51:41-42

And in ʿAad [was a sign], when We sent against them the barren wind. It left nothing of what it came upon but that it made it like disintegrated ruins.

Science

For air to be useful to humans, it must contain a lot of oxygen. If the oxygen in the air is separated and taken away, humans will not be able to survive even with air.

How can a nation being destroyed by sending air? The reason is that this air was sterile air.

24. Twelve Months

Quran 9:36

Indeed, the number of months with Allāh is twelve [lunar] months in the register of Allāh [from] the day He created the heavens and the earth;

Science

Man did not discover from the beginning that there are twelve months in a year. Man has been mentioning the number of months in various ways in various periods of time in various calculations.

It was only later that they discovered that the period of time for the earth to revolve around the sun is 12 months. But this verse says that there were 12 months in the record of Allah from the day He created the heavens and the earth.

25. The Sun and the Planets are moving .

Quran 13:2

The sun and the moon, each running [its course] for a specified term. He arranges [each] matter; He details the signs that you may, of the meeting with your Lord, be certain.

Quran 31:29

Do you not see [i.e., know] that Allāh causes the night to enter the day and causes the day to enter the night and has subjected the sun and the moon, each running [its course] for a specified term, and that Allāh, of whatever you do, is Aware?

Quran 35:13

He causes the night to enter the day, and He causes the day to enter the night and has subjected the sun and the moon - each running [its course] for a specified term. That is Allāh, your Lord; to Him belongs sovereignty. And those whom you invoke other than Him do not possess [as much as] the membrane of a date seed.

Quran 36:38

And the sun runs [on course] toward its stopping point. That is the determination of the Exalted in Might, the Knowing.

Quran 39:5

He created the heavens and earth in truth. He wraps the night over the day and wraps the day over the night and has

subjected the sun and the moon, each running [its course] for a specified term. Unquestionably, He is the Exalted in Might, the Perpetual Forgiver.

Science

Only after today's scientific discoveries did man learn that the Earth rotates around itself and also revolves around the Sun, that it takes one day to rotate around itself, and that the time it takes to complete one revolution around the Sun is one year.

What the Sun does when the Earth revolves around the Sun is that it revolves around itself and drags this Earth and the other planets in its family along with it.

26. Development of the baby in the womb

Quran 23:14

Then We made the sperm-drop into a clinging clot, and We made the clot into a lump [of flesh], and We made [from] the lump, bones, and We covered the bones with flesh; then We developed him into another creation. So blessed is Allāh, the best of creators

Science

This is a term that speaks of a profound scientific truth. Because the living beings that grow in the womb do not take their proper form for about three months and grow as mere flesh. The embryo of a non-human organism and the embryo of a human are formed in the same way at this stage. Only after three months have passed will the cells of each organ move to where they are supposed to be and form.

27. Production of a human being from mixed sperm

Quran 76:2

Indeed, We created man from a sperm-drop mixture[1] that We may try him; and We made him hearing and seeing.

Only after the sperm cell released from the male fuses with the egg cell released from the female does it travel to the female's uterus and develop into a human being.

Science

Before 1875, Science Had No Idea Where Babies Come From! Not until 1875 did mankind figure out the true story of the sperm and the egg. For centuries, the titans of the scientific revolution had no idea how babies were made.

28. In Pairs....

Quran 36:36

Exalted is He who created all pairs[1] - from what the earth grows and from themselves and from that which they do not know.

Quran 13:3

And it is He who spread the earth and placed therein firmly set mountains and rivers; and from all of the fruits He made therein two mates; He causes the night to cover the day. Indeed in that are signs for a people who give thought.

Quran 20:53

[It is He] who has made for you the earth as a bed [spread out] and inserted therein for you roadways and sent down from the sky, rain and produced thereby categories of various plants.

Quran 43:12

And who created the species, all of them, and has made for you of ships and animals those which you mount

Quran 51:49

And of all things We created two mates [i.e., counterparts]; perhaps you will remember.

Science

The discovery of sex in plants is usually credited to Camerarius (1694), and Koelreuter (1761) is generally believed

to have made the first systematic study of plant hybrids

The fact that there are male and female in plants is a modern discovery.

And in some verses that mention pairing, God says, **"He created pairs from that which they did not know."**

Men has discovered many pairs today that were unknown to men at that time.

In electricity, there are pairs called **positive and negative.**

Similarly, in every atom, there are pairs called **protons and electrons .**

29. Origin of sperm

Quran 86:5-7

So let man observe from what he was created. He was created from a fluid, ejected, Emerging from between the backbone and the ribs.

Science

Until recently, it was believed that sperm emerged from the seminal vesicles.

However, it has only recently been discovered that although sperm is produced from the seminal vesicles, it travels upwards and reaches a specific point between the spinal cord and the ribs, from where it is rapidly expelled.

30. The uniqueness of womb

Quran 13:8

Allāh knows what every female carries[1] and what the wombs lose [prematurely] or exceed.[2] And everything with Him is by due measure.

In general, the human body has certain characteristics called sila.

The woman's uterus accepts a foreign life into itself. It nurtures the fetus for several months and then suddenly tries to expel it. When it tries to do so, the uterus contracts and expands. This is why labor pains occur.

The phrase "everything with Him is by due measure" is particularly noteworthy. The reason why the womb, which had been receiving a foreign substance against its nature, was expelled at a specific time has not been discovered to this day.

31. The importance of fingerprints

Quran 75:4

Yes. [We are] Able [even] to proportion his fingertips.

The reason for mentioning the fingertips is that no matter what part of a person's body is, it is impossible to say that that part belongs to a specific person. Because many people have similar parts.

One person is completely different from another because of the fingerprints on their fingers.

Science

Science behind fingerprints No two people have the same fingerprints, not even identical twins. Neither do fingerprints change, even as we get older.

32. How is milk produced?

Quran 16:66

And indeed, for you in grazing livestock is a lesson. We give you drink from what is in their bellies - between excretion and blood - pure milk, palatable to drinkers.

Science

Scientists says, Milk is produced from a substance that is intermediate between the stage of ground food turning into pulp and blood.

33. How is honey produced?

Quran 16:68,69

And your Lord inspired to the bee, "Take for yourself among the mountains, houses [i.e., hives], and among the trees and [in] that which they construct.

Then eat from all the fruits[1] and follow the ways of your Lord laid down [for you]." There emerges from their bellies a drink, varying in colors, in which there is healing for people. Indeed in that is a sign for a people who give thought.

Science

Most people even today do not know how honey is produced. They have the misconception that bees suck nectar from flowers and store it in their hives.

The truth is that bees consume the glucose found in flowers and fruits as food. Honey is a waste product that is produced from the material that enters their stomach after being consumed.

Today's scientists have proven this.

34. Announcement about modern vehicles

Quran 16:5-8

And the grazing livestock He has created for you; in them is warmth[1] and [numerous] benefits, and from them you eat. And for you in them is [the enjoyment of] beauty when you bring them in [for the evening] and when you send them out [to pasture].

And for you in them is [the enjoyment of] beauty when you bring them in [for the evening] and when you send them out [to pasture].

And they carry your loads to a land you could not have reached except with difficulty to yourselves. Indeed, your Lord is Kind and Merciful.

And [He created] the horses, mules and donkeys for you to ride and [as] adornment. And He creates that which you do not know.

These verses mention the horses, mules, and donkeys that humans used at that time, and say, **"He will create what you do not know."**

Science

This is a foretelling of the many types of vehicles that have been created since the time of the Prophet Muhammad (peace be upon him) and that will be created in the future as well.

35. A miracle cure for major anxiety

Quran 3:153-154

[Remember] when you [fled and] climbed [the mountain] without looking aside at anyone while the Messenger was calling you from behind. So Allāh repaid you with distress upon distress so you would not grieve for that which had escaped you [of victory and spoils of war] or [for] that which had befallen you [of injury and death]. And Allāh is [fully] Aware of what you do.

Then after distress, He sent down upon you security [in the form of] drowsiness, overcoming a faction of you,

The victory in the Battle of Uhud slipped away and the Muslims suffered heavy casualties and injuries.

At a time when the Muslims were mentally dejected and weak, the rumor that the Prophet (peace be upon him) had been killed became even more worrying.

The worries that had arisen for the Muslims disappeared. The only worry that existed at that time was that the Prophet (peace be upon him) had been killed.

To alleviate that worry, the Prophet's companions received great inspiration as soon as they received the news that the Prophet (peace be upon him) was alive. They regained their victory.

The Quran says that giving sleep was also beneficial.

It has been discovered today that such actions can make one forget worries.

Science

To cure those who are deeply worried and those who are suffering from mental illness, **one should create a greater anxiety in their imagination. Once a great anxiety is created, the small worries that already existed will disappear. Only the great anxiety will occupy the entire being. If the imagined anxiety is understood as imagination, he will be free from all worries.**

The Quran explains this method nowadays used by psychoanalysts with reason.

The Quran continues by saying that giving sleep was even more beneficial.

If you cause great anxiety and then cause sleep and remove great anxiety, all kinds of anxiety will disappear.

This method, discovered after extensive research in the 20th century, was mentioned in the Quran in the 14th century.

36. Nerves that sense pain

Quran 4:56

Indeed, those who disbelieve in Our verses - We will drive them into a fire. Every time their skins are roasted through, We will replace them with other skins so they may taste the punishment. Indeed, Allāh is ever Exalted in Might and Wise.

The Quran says that on the Day of Judgment the wicked who reject (forget) God's commandments in this world will be tormented by the fire of hell. When God says this, He says that whenever the skin of the inhabitants of hell burns, He will immediately replace it with other skins (so that they can continue to feel pain).

Science

The nerves that sense pain are located in the human skin. A recent discovery is that if the skin is burned, the brain will not feel any pain. This is why they perform surgeries by inserting needles that numb the upper skin.

37. The Holy Quran is preserved.

Quran 15:9

Indeed, it is We who sent down the message [i.e., the Qur'ān], and indeed, We will be its guardian.

The people who lived during the time when the Quran was revealed and the people who accepted it were mostly illiterate. Moreover, the only writing materials used at that time were wooden barks and leather.

The Quran, which was revealed in a gradual way over a period of 23 years, has been preserved even after 1400 years. This scripture has been preserved in the original language in which it was revealed without any change.

Science

It validates its authenticity in its purest form as it was revealed 1400 years ago.

38. Preserved Pharaoh's body

Quran 10:90-92

And We took the Children of Israel across the sea, and Pharaoh and his soldiers pursued them in tyranny and enmity until, when drowning overtook him, he said, "I believe that there is no deity except that in whom the Children of Israel believe, and I am of the Muslims."

Now? And you had disobeyed [Him] before and were of the corrupters?

So today We will save you in body[1] that you may be to those who succeed you a sign. And indeed, many among the people, of Our signs, are heedless.

Science

The body that was submerged that day, when humans would have preserved it if it had been exposed, was discovered in 1898, in the midst of the glaciers, and is being preserved in a museum in Cairo, the capital of Egypt. All tests, including carbon dating, have been done to determine the age of this body and have confirmed that it is **"a body thousands of years old."**

39. Prophet Noah's Ark

Quran 29:14

And We certainly sent Noah to his people, and he remained among them a thousand years minus fifty years, and the flood seized them while they were wrongdoers.

Quran 51:11-17

Then We opened the gates of the heaven with rain pouring down. And caused the earth to burst with springs, and the waters met for a matter already predestined. And We carried him on a [construction of] planks and nails, Sailing under Our observation as reward for he who had been denied. And We left it as a sign, so is there any who will remember? And how [severe] were My punishment and warning. And We have certainly made the Qur'ān easy for remembrance, so is there any who will remember?

Science

The ship was anchored on Mount Judi, which is located on the border of Turkey, due to the flood reaching a height of 16,000 feet.

American researchers discovered a ship buried during excavations on Mount Ararat (Judi) in Turkey.

Such a large ship could have been anchored on the mountain only if there had been a flood of that magnitude. God says that He left this ship as a witness.

40. The Big Crunch Theory

Quran 21:104

The Day when We will fold the heaven like the folding of a [written] sheet for the records. As We began the first creation, We will repeat it. [That is] a promise binding upon Us. Indeed, We will do it.

Science

This fits in with the theory of Big Crunch which talks about how the universe will be pulled back into the black holes and again form a tiny mass.

Indeed, the Big Crunch is one of the scenarios predicted by scientists in which the Universe may end. Just like many others, it is based on Einstein's Theory of General Relativity. That is, if the Big Bang describes how the Universe most possibly began, the Big Crunch describes how it will end as a consequence of that beginning.

41. Frontal Lobe (Fore Head)

Quran 96:15-16

No! If he does not desist, We will surely drag him by the forelock[1] – A lying, sinning forelock.

Science

According to a book titled 'Essentials of Anatomy and Physiology,' it is clearly stated that the forehead or frontal area of the brain is responsible for motivation and the foresight to plan and initiate movements.

All this takes place in the prefrontal area of the brain. The part of the brain that is responsible for movement and planning is said to be seized if he does not stop. Other studies have proved that it is this prefrontal region that is responsible for the function of lying.

42. Contradiction

Then do they not reflect upon the Qur'ān? If it had been from [any] other than Allāh, they would have found within it much contradiction.

Science

To this day (for the last 1450 years) it is aligned with the proven scientifical theories. No contradiction.

43. Data Retrieval

Quran 18:49

And the record [of deeds] will be placed [open], and you will see the criminals fearful of that within it, and they will say, "Oh, woe to us! What is this book that leaves nothing small or great except that it has enumerated it?" And they will find what they did present [before them]. And your Lord does injustice to no one.

Science

Data retrieval" refers to the process of accessing and extracting information from various sources. Technically human came to know about "Data Retrieval" (upto the last decimal) in the last century only.

44. Formation of Clouds

Quran 24:43

Do you not see that Allāh drives clouds? Then He brings them together; then He makes them into a mass, and you see the rain emerge from within it.

Science

In reality, the small clouds are pushed by the winds (moved gently), and the ones that are near each other amalgamate. At this point, a vertical updraft happens and the upper part of the cloud expands up in the sky. As a result, different parts of the cloud are raised to divergent points and look as if many clouds are piled on top of each other (stacking). The mention of this scientific fact in the Quran is ahead of time as this study only took place in the past two centuries.

45. The Communication System Between Ants

Quran 27:18

Until, when they came upon the valley of the ants, an ant said, "O ants, enter your dwellings that you not be crushed by Solomon and his soldiers while they perceive not."

Science

In the past, some people mocked this verse. claiming it's a fairytale. However, scientific research revealed several intriguing facts about the lifestyle of ants, which were not known before to mankind and it has shown that they imitate human behaviors in many aspects.

For example, ants similarly bury their dead to humans, Also they have so sophisticated laboring system wherein they're divided into managers, supervisors, foremen, and workers. What's more intriguing is that they have a market in which they bid and exchange goods! not to mention that they pile up foods during summers and take them to stores to feed in the harsh winters. Very humanistic behaviors.

46. Male Determines the Sex of the Fetus

Quran 75:37

Had he not been a sperm from semen emitted?

Science

Traditionally, and for a long time, it's thought that females are responsible for determining the sex of the newborn. However, science revealed sex determination is associated with the type of sperms. Every human has 46 chromosomes in his/her DNA that shape his own's physical features, including whether he will grow to be female or male. While all ovums carry one typical chromosome x, Some of the sperms carry chromosome X and the others carry chromosome Y.

During fertilization, if the sperm carrying chromosome X. impregnates the ovum, the Embryo will grow to be female (xx). But if it carries chromosome Y, then, the family will wait for a male.

Quran has mentioned the complex process of fertilization in a simple word 1450 years ago.

47. The Flight of Birds

Quran 16:79

Do they not see the birds controlled in the atmosphere of the sky? None holds them up except Allāh. Indeed in that are signs for a people who believe.

Science

It's dumbfounding that young birds even without prior experience can travel long distances and return as it knows every movement previously.

When scientists researched the flight of birds, they discovered a migratory program embedded in the genetic code of birds that explain how young babies can travel long distance and return to the departure point without any guide.

48. Speed of Light

Quran 32:5

He arranges [each] matter from the heaven to the earth; then it will ascend to Him in a Day, the extent of which is a thousand years of those which you count.

Science

From above verse the affair or divine order reaches to God in one day time whose distance or length is equal to one thousand lunar years.

[In Past People Used To Measure distance In time. for example if someone says that village is at the distance of 2 days by walking speed. But here Allah says 1000 years by the speed of moon .Allah says by your(Muslims) counting and Muslims counting is by lunar (moon) because Islam use lunar calendar.]

So we get the distance 1000 Years and time 1 day from above verse.

To Know In 1000 years how much kilometers covered we will see how much kilometers moon travel in 1000 years because Islam use lunar calendar

Average moon Speed = 1.022794272 Km/S

Effect of Heliocentric gravitation= 0.8915725423

1.022794272 × 0.8915725423

Basic Speed = 0.9118952893 km/second

0.911.. 27.32166×86400

Per Month = 2152612.269 Km/ Month

= 2152612.269×12

Per Year = 25,831,347.228 km

25,831,347.228× 1000 Year = 25,831,347,228 Km

Hence in 1000 years moon will cover the distance of 25,831,347,228 Km

Now we get the distance and we have time already which is 1 day . Now we have to apply speed formula.

Distance = 25,831,347,228 Km

Time = 86164 seconds(sidereal moon day)

Speed = 25,831,347,228 ÷ 86164

=299792 km/s

We get the exact speed of light.

49. The transformation of rotten bones into stones and iron

Quran 17:49,50

And they say, "When we are bones and crumbled particles, will we [truly] be resurrected as a new creation?"

Say, "Be you stones or iron.

Science

An astonishing cosmic proof is that;

If a body is buried in an area rich in **silicon mineral**, its skeleton will eventually turn into **rock and stone**.

Meanwhile, if someone is buried in an area rich in **pyrite mineral**, which is called **"fake gold"**, the body will turn into **iron**.

These scientific facts were discovered only recently.

Researchers recently discovered that bodies buried in certain areas had turned into stones or iron statues.

Finally...

Brother!

Hope you have read it...

Quranic verses must have surprised you in many places where you never thought this much meticulous informatiins contained in Quran, Right...

Don't worry

Quran QR Code is given on the back page for you. Download and read the complete Quran available in six languages, choose your preferred language.

It may further attracts you...

May God guide everyone to the right path!

Come let's worship only the One God who created the entire Universe. We will win both worlds.

In the last page we have given few more Books with QR Code which will enhance your knowledge further.

❁ ***All the best!*** ❁

Welcome to Islam

(Note 1)

Becoming a Muslim and how to be a Muslim?

What do we need to know?

One can become a Muslim by saying the following affirmation.

"Ashhuthu a(n)lla ilaha illallahu wa ashhuthu anna Muhammad Abduhu wa Rasululuhu"

"I bear witness that there is none worthy of worship but Allah, and that Muhammad (peace be upon him) is the Messenger of Allah."

Isn't it the right time to fulfill your life's purpose, surrender to the truth and accept your Creator?

Shahada (Faith - Pledge)

The first pillar of Islam is to believe and express one's belief through the 'Shahada' called the 'Kalima'.

Ashhathu a(n)llah ilaha illallahu wa ashathu anna Muhammad Abduhu wazauluhu.

Meaning: I bear witness that there is none worthy of worship but Allah. I bear witness that Muhammad (PBUH) is the servant of Allah and His Messenger.

Affirmation : Ashadhu a(n)llailaha illallahu

The first part of the pledge contains the most important truth that God has bestowed upon the human society, that there

is no God worthy of worship except Allah Almighty, which God mentions in the Qur'an;

Quran 21:25

And We sent not before you any messenger except We revealed to him that, "There is no deity except Me, so worship Me."

By reciting this Shahada (Kalima) , a Muslim acknowledges that Allah is the Creator of all creations and that He is the supreme authority over every person and every thing in this universe.

By this means, a Muslim draws his heart and soul closer to God by saying that no one is worthy of worship but Allah, and by relying on Him, trusting in Him and devoting his faith, commitment and obedience to Him.

It is contrary to the basic tenets of Islam to worship anything other than God (angels, messengers including Prophet Muhammad (pbuh), religious saints, idols, sun, moon, tree etc.) It is an unforgivable sin unless one repents for it before his death. All forms of worship should be towards Allah, the One Lord.

"Rejection of One God" is the belief not only in man-made gods and goddesses of wood and stone, but also in (other than Islamic principles) superstitions, and worshiping, loving, and obeying religious leaders and thinking that they posses special authority and sanctity.

And Islam rejects astrology, palmistry, fortune-telling,

seeking to know hidden things, visiting the graves and memorials of religious scholars and invoking them. it only insist you to Pray directly to Allah

All forms of worship such as prayer, fasting, supplication, seeking refuge, animal sacrifice should be performed for the God.

Engaging in activities that please God, speaking, and doing things that encourage what He has commanded, either directly or collectively, is worship. Therefore, worship is not limited to fulfilling the five duties of Islam. It covers every aspect of life.

If one does something to please the God, like feeding his family, saying a few good words to console another, it is also a form of worship. This means that all worship should be done in a proper manner only for the God.

Affirmation : WA ASHATHUU ANNA MUHAMMADAN ABDUHU WARASULUHU

The meaning of the second part of the pledge is that Muhammad (PBUH) is God's Messenger and His Servant. This implies that one should obey the Prophet's orders and follow them. We should believe in what the Prophet (PBUH) said, his teachings and his practices. Things which are forbidden to do, should avoid them and should only worship God as he taught. His teachings are the revelations given to the Prophet (peace be upon him) by God.

The Prophet (peace be upon him) lived as an example for mankind to follow. So try to follow his life and practices. The God says;

Quran 68:4

And indeed, you are of a great moral character.

And the God says;

Quran 33:21

There has certainly been for you in the Messenger of Allāh an excellent pattern[1] for anyone whose hope is in Allāh and the Last Day and [who] remembers Allāh often.

The Prophet (PBUH) was sent to live according to the teachings of the Qur'an in all aspects of life in his words, deeds and actions. When the Prophet's wife Ayesha (RA) was asked about the characteristics of the Prophet, she said, "The Qur'an was his characteristic."

The second part of the Shahatha (Kalima) is that we should follow the Prophet in all aspects of our lives. The God says:

Quran 3:31

Say, [O Muḥammad], "If you should love Allāh, then follow me, [so] Allāh will love you ...."

Quran 59:7

".. And whatever the Messenger has given you - take; and what he has forbidden you - refrain from..."

Muhammad (PBUH) is the final messenger of God. It also means that there will be no messengers after Muhammad (pbuh), the final messenger of God.

Quran 33:40

Muḥammad is not the father of [any] one of your men, but [he is] the Messenger of Allāh and seal [i.e., last] of the prophets. And ever is Allāh, of all things, Knowing.

Belief in the prophethood of Muhammad (pbuh) includes

belief in the guidance and Sunnah (his deeds, sayings) that he brought. It also insists on following his directions faithfully. Prophet Muhammad (pbuh) was a human being.

Although the Prophet (peace be upon him) had pure upright character, extraordinary honesty, unwavering faith in Allah and steadfastness in Islam, he was a Prophet of God. So Muslims do not worship the Prophet.

How do I become a Muslim?

The word Muslim means "one who obeys the will of God". Becoming a Muslim (regardless of race, nationality, clan background) is very easy. It is a simple method without any pre-conditions. One can embrace Islam alone or in the presence of others.

If a person wishes to become a Muslim, if he has conviction and therefore deep faith that Islam is the true religion, he can join Islam without any delay by reciting the "Kalima", the pledge of faith. The Kalima is the first of the five pillars of Islam. One comes to Islam by reciting the Kalima with true faith and devotion.

Try reciting the kalimah (pledge of faith) in Arabic.

"Ashhathu a(n)llailaha illallahu wahtahu la shariqalahu wa ashhathu anna Muhammadan Abduhu Warazuluhu".

No witness is needed for this event. There is no need to hold a big ceremony for this. Because this is your personal commitment. However if possible it is preferable that you join Islam by saying the Kalima among Muslims who can be witnesses. But do not delay in joining Islam for this or any other reason. After you become a Muslim you must take a

bath and pray two rakats.

"Ghusl" is the name given to thoroughly cleaning the whole body by taking a bath with the intention of joining Islam. This is a symbolic act of erasing past mistakes and sins and seeking forgiveness from Allah for the actions that have taken place up to that point.

Forgiveness of past sins

Quran 3:135

....- And who can forgive sins except Allāh? - ...

You join Islam purely for God's will. Your past sins are forgiven and you begin a new life of piety and righteousness. The Prophet (PBUH) said to a person who wanted to join Islam, 'Your past sins will be forgiven'.

Prophet Muhammad (peace be upon him) said: (to a companion) "Do you not know that your joining Islam will erase all your previous sins? (Muslim)

The Prophet (PBUH) said, "If one sincerely accepts Islam, Allah will forgive all his previous sins. After that, the work of reckoning will begin. Every good deed will be rewarded 10 to 700 times. Evil deeds will be recorded only if Allah does not grant forgiveness." (Buhari)

The Prophet (PBUH) said:

Path of Islam is smooth. Do not burden it and make things difficult. Strive to get closer to perfection to please Allah. Pray in the morning, afternoon and night and benefit. (Bukhari)

If one embraces Islam he regrets his old life and beliefs.

One need not worry much about the sins committed before joining Islam. Like a newborn baby in its mother's womb, his record is clean when he joins Islam.

Importance of following the Teachings of Islam

You need to know what it means to be a Muslim and start living according to true Islamic ethics. Both the Qur'an and the Hadith (sayings of the Prophets) emphasize the importance of following Islam.

The God says:

Quran 3:19

Indeed, the religion in the sight of Allāh is Islām.

Quran 3:85

And whoever desires other than Islām as religion - never

will it be accepted from him, and he, in the Hereafter, will be among the losers.

The Prophet Muhammad (PBUH) said:

There is none worthy of worship but Allah. He is without partner. Muhammad (pbuh) is His Messenger and Servant. Jesus (pbuh) is the Messenger of God the words of God were translated on the Mother Mary and created through it. (God created him by saying "Be" and "it is") Heaven is reality. Hellfire is true, Similarly, whoever testifies accordingly, God will make him enter Paradise according to his deeds. (Buhari)

Whoever witness that there is none worthy of worship but

Allah, Allah forbids him from eternal abode in Hellfire.The Prophet (peace be upon him) said.

Some Important Fundamentals of Being a Muslim

Acceptance of righteous deeds (i.e. sahada/confessing to become a Muslim) is based on the fulfillment of the following two conditions.

1 The purpose of doing deeds must be purely for Allah. It should not be done for the sake of fame or praise.

2. All actions must be performed based on the Sunnah (guidance) of the final Messenger of Allah, the Prophet (PBUH).

You are obligated to answer for things you know. You must also take the time to learn the unknown.

If you are not a Muslim, it is incumbent upon you to try to learn about Islam and seek clarification from those who know the religion about things you do not understand in the Islamic religion.

So ask the people of the message if you do not know.

Quran 16:43

Oh! Allah, You are the one who guides. Make them easy to understand your right path! Let them enter your way!

All glory to You! You know better! Good listener.

Who is Prophet Muhammed ?

Say, "I am not something new among the messengers, nor do I know what will be done with me or with you. I only follow that which is revealed to me, and I am no but a clear warner.
Quran 46:9
